

Microsoft Azure Virtual Desktop (formerly Windows Virtual Desktop)

CLOUDETEER Has Earned the Microsoft Azure Virtual Desktop Advanced Specialization

[Hamburg] – [25.10.21] – [CLOUDETEER www.cloudeteer.de] today announced it has earned the Microsoft Azure Virtual Desktop (formerly Windows Virtual Desktop) advanced specialization, a validation of a partner's deep knowledge, extensive experience and expertise in deploying, scaling and securing virtual desktop infrastructure on Azure.

Only partners that meet stringent criteria around customer success and staff skilling, as well as pass a third-party audit of their Azure Virtual Desktop technical practices, are able to earn the Microsoft Azure Virtual Desktop advanced specialization.

Supporting secure remote work for employees is more critical than ever. Microsoft Azure Virtual Desktop is a Microsoft solution that seamlessly integrates with other Microsoft products and allows customers to implement virtual desktops in a scalable, secure, and cost-effective way.

Partners with validated capabilities in implementing Azure Virtual Desktop can help customers deploy and navigate the licensing efficiencies it offers to deliver the solution that is most efficient for their organization.

Marc Sundermann, CEO says "We are proud that we have realized the Azure Virtual Desktop advanced specialization after such a short time with such a great team. With the Microsoft Azure Virtual Desktop advanced specialization, we round off our competence of the Microsoft portfolio for digitalization. Now we play with the big boys on the farm."

Rodney Clark, Corporate Vice President, Global Partner Solutions, Channel Sales and Channel Chief at Microsoft added, "The Microsoft Azure Virtual Desktop advanced specialization highlights the partners who can be viewed as most capable when it comes to deploying Azure Virtual Desktop in Azure. CLOUDETEER clearly demonstrated that they have both the skills and the experience to offer clients a path to transition to desktop-as-a-service in a scalable, secure, and cost-effective way."
